

Complete Roadmap: Cracking Service-Based Companies in Campus Placements

Table of Contents

1. Understanding Service-Based Companies
 2. Interview Rounds Breakdown
 3. 30-Day Preparation Plan
 4. Learning Resources
 5. Project Ideas for Resume
 6. Resume Building Guide
 7. Resume Templates
-

1. Understanding Service-Based Companies

Major Service-Based Companies:

- TCS (Tata Consultancy Services)
- Infosys
- Wipro
- Accenture
- Cognizant
- Capgemini
- HCL Technologies
- Tech Mahindra
- LTI Mindtree

Package Range: ₹3.5 LPA - ₹11 LPA for freshers

What They Look For:

- Strong fundamentals in programming
- Problem-solving abilities
- Communication skills
- Adaptability and learning mindset
- Basic project experience

2. Interview Rounds Breakdown

Round 1: Online Assessment (60-90 minutes)

Components:

- **Aptitude Section** (20-25 questions, 20-30 mins)
 - Quantitative aptitude
 - Logical reasoning
 - Verbal ability
 - Data interpretation
- **Technical MCQs** (20-30 questions, 20-30 mins)
 - Programming concepts (C/C++/Java/Python)
 - Data structures and algorithms
 - DBMS basics
 - Operating systems
 - Computer networks
 - OOPS concepts
- **Coding Questions** (1-2 problems, 30-40 mins)
 - Easy to medium difficulty
 - Focus on arrays, strings, loops, and basic logic

Difficulty Level: Easy to Medium

Round 2: Technical Interview (30-45 minutes)

Topics Covered:

- Resume projects discussion (50% weightage)
- Data structures (arrays, linked lists, stacks, queues, trees)
- Programming questions on paper/whiteboard
- DBMS queries (SQL basics)
- OOPS concepts with examples
- Puzzle solving
- Internship/project experience

Sample Questions:

- Explain your project architecture

- Write a program to reverse a linked list
- Difference between stack and queue
- What is polymorphism? Give real-world example
- Write an SQL query to find second highest salary

Round 3: HR Interview (15-30 minutes)

Common Questions:

- Tell me about yourself
- Why do you want to join our company?
- What are your strengths and weaknesses?
- Where do you see yourself in 5 years?
- Are you willing to relocate?
- Tell me about a challenging situation you faced
- Why should we hire you?
- Do you have any questions for us?

Tips:

- Be honest and confident
 - Show enthusiasm for the company
 - Demonstrate soft skills
 - Ask intelligent questions about growth and learning
-

3. 30-Day Preparation Plan

Week 1: Foundations & Assessment (Days 1-7)

Days 1-2: Assessment & Setup

- Take a diagnostic test on aptitude and coding
- Identify weak areas
- Set up coding environment
- Choose primary language (Java/Python/C++ recommended)

Days 3-4: Aptitude Basics

- Time & Work, Speed & Distance
- Percentages, Profit & Loss
- Permutations & Combinations
- Practice 50 questions daily

Days 5-7: Programming Fundamentals

- Review syntax of your primary language
- Loops, conditionals, functions
- Arrays and strings basics
- Solve 5-10 easy problems on HackerRank/LeetCode

Week 2: Core Technical Skills (Days 8-14)

Days 8-10: Data Structures

- Arrays: searching, sorting, 2D arrays
- Strings: manipulation, pattern matching
- Linked Lists: insertion, deletion, reversal
- Stacks & Queues: implementation and problems

Days 11-13: More DSA + DBMS

- Basic tree traversals
- Hashing concepts
- SQL basics: SELECT, WHERE, JOIN, GROUP BY
- Practice 10 coding problems

Day 14: Review & Practice

- Mock test on aptitude
- Solve 5 mixed coding problems
- Review all concepts covered

Week 3: Advanced Topics & Projects (Days 15-21)

Days 15-17: OOPS & Advanced Programming

- Classes, objects, inheritance
- Polymorphism, encapsulation, abstraction
- Exception handling
- File handling
- Practice OOPS MCQs

Days 18-20: Project Work

- Build/polish one major project
- Document your project properly
- Prepare to explain every component
- Add project to GitHub with README

Day 21: Operating Systems & Networks Basics

- Process, threads, deadlock
- Memory management basics
- OSI model, TCP/IP
- HTTP/HTTPS basics

Week 4: Mock Tests & Final Prep (Days 22-30)

Days 22-24: Mock Tests

- Take 2-3 full-length mock tests
- Simulate real exam conditions
- Analyze mistakes thoroughly
- Focus on time management

Days 25-27: Interview Preparation

- Practice explaining projects out loud
- Prepare answers to common HR questions
- Practice coding on paper/whiteboard
- Mock interviews with friends/seniors

Days 28-29: Resume & Final Review

- Polish your resume
- Get it reviewed by seniors/mentors
- Quick revision of all topics
- Prepare questions to ask interviewer

Day 30: Rest & Confidence Building

- Light revision only
- Get good sleep
- Stay positive and confident

4. Learning Resources

Aptitude & Reasoning

Free Resources:

- IndiaBix ([indiabix.com](https://www.indiabix.com)) - Topic-wise practice

- Freshersworld Aptitude - Mock tests
- Javatpoint Aptitude section

Paid/Premium:

- PrepInsta Prime (₹299-499)
- Faceprep (₹199-699)

YouTube Channels:

- Arun Sharma Aptitude Tricks
- Dinesh Miglani
- Career Anna

Coding & DSA

Platforms:

- LeetCode (focus on Easy & Medium)
- HackerRank (Interview Preparation Kit)
- GeeksforGeeks (Company-specific questions)
- Coding Ninjas Studio

YouTube Channels:

- Apna College
- Code With Harry
- Abdul Bari (for algorithms)
- Jenny's Lectures (for DBMS, OS)

DBMS & SQL

- W3Schools SQL Tutorial
- SQLBolt (interactive learning)
- Khan Academy SQL course
- GeeksforGeeks DBMS

OOPS Concepts

- Programiz OOPS tutorials
- JavaTpoint OOPS
- Telusko (YouTube)

Mock Tests

- Prepbytes

- Unstop (formerly Dare2Compete)
 - CoCubes free mock tests
 - Company-specific mock tests on GeeksforGeeks
-

5. Project Ideas for Resume

Beginner-Friendly Projects (Choose 2-3)

1. Student Management System

Tech Stack: Java/Python + MySQL **Features:**

- Add, update, delete student records
- View all students
- Search functionality
- Grade calculation **Learning:** CRUD operations, database connectivity

2. Library Management System

Tech Stack: Java + JDBC + MySQL **Features:**

- Book issue/return
- Fine calculation
- Member management
- Book search and availability **Learning:** Transaction management, date handling

3. Personal Expense Tracker

Tech Stack: Python + SQLite **Features:**

- Add/categorize expenses
- Monthly reports and analytics
- Budget setting and alerts
- Visual graphs (matplotlib) **Learning:** Data analysis, visualization

4. Online Quiz Application

Tech Stack: HTML/CSS/JavaScript + Python Flask **Features:**

- Multiple choice questions
- Timer functionality
- Score calculation
- Result storage **Learning:** Web development basics, session management

5. Weather Dashboard

Tech Stack: Python/JavaScript + API **Features:**

- Real-time weather data using OpenWeatherMap API
- City search
- 5-day forecast
- Temperature unit conversion **Learning:** API integration, JSON handling

6. To-Do List Web App

Tech Stack: React.js + Node.js + MongoDB **Features:**

- Add, edit, delete tasks
- Mark complete/incomplete
- Filter by status
- User authentication **Learning:** Full-stack development, REST APIs

7. Resume Builder

Tech Stack: HTML/CSS/JavaScript **Features:**

- Form-based input
- Template selection
- PDF generation
- Save/load functionality **Learning:** DOM manipulation, local storage

8. Chatbot Application

Tech Stack: Python + NLTK/ChatterBot **Features:**

- Intent recognition
- Predefined responses
- Training capability
- Simple UI **Learning:** NLP basics, pattern matching

Tips for Projects:

- Deploy at least one project (Heroku, Netlify, Vercel)
 - Maintain clean code with comments
 - Create detailed README on GitHub
 - Include screenshots/demo
 - Be ready to explain every line of code
-

6. Resume Building Guide

Resume Structure (1 Page Only)

1. Header

Your Full Name

Email | Phone | LinkedIn | GitHub | Portfolio (if any)

Location (City, State)

2. Education (Latest first)

Bachelor of Technology in Computer Science Engineering

College Name, University

Expected Graduation: May 2025

CGPA: 8.5/10

Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks

3. Technical Skills (Categorize clearly)

Languages: Java, Python, C++, JavaScript

Web Technologies: HTML, CSS, React.js, Node.js

Databases: MySQL, MongoDB

Tools & Technologies: Git, VS Code, Postman

Core Competencies: Data Structures, Algorithms, OOPS, DBMS

4. Projects (2-3 projects, most impressive first)

Format:

Project Name | Technologies Used Month Year

- Brief one-line description of what the project does
- Key feature 1 with impact/result
- Key feature 2 with technical detail
- GitHub link

Example:

Student Management System | Java, MySQL, JDBC Jan 2024

- Developed a console-based application to manage 500+ student records efficiently
- Implemented CRUD operations with input validation reducing data errors by 40%
- Integrated MySQL database with optimized queries improving retrieval time by 30%
- GitHub: github.com/username/student-management

5. Achievements/Certifications (Optional)

- Solved 200+ problems on LeetCode/HackerRank
- Completed Python for Everybody Certification - Coursera
- Winner of College Hackathon 2024
- Active contributor to open-source projects

6. Extracurricular/Leadership (Optional)

- Technical Lead, Coding Club (Month Year - Month Year)
- Organized workshop on Web Development for 100+ students

Resume Do's and Don'ts

DO:

- Keep it to 1 page
- Use action verbs (Developed, Implemented, Designed, Created)
- Quantify achievements (improved by X%, handled Y records)
- Use consistent formatting and fonts
- Proofread multiple times for errors
- Tailor resume for each company if possible
- Use ATS-friendly format (no tables, simple formatting)

DON'T:

- Include photo (not required in India for IT roles)
- Add irrelevant personal details
- Use fancy fonts or colors
- Write paragraphs (use bullet points)
- Exaggerate or lie about skills
- Include every project you've done
- Use "I", "me", "my" (implied)

7. Resume Templates

Template 1: Classic ATS-Friendly

RAJESH KUMAR

rajesh.kumar@email.com | +91-9876543210 | linkedin.com/in/rajeshkumar
github.com/rajeshkumar | Bangalore, Karnataka

EDUCATION

Bachelor of Technology in Computer Science Engineering

XYZ Institute of Technology, VTU 2021 - 2025

CGPA: 8.7/10

Relevant Coursework: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL

Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js

Databases: MySQL, MongoDB, PostgreSQL

Tools: Git, GitHub, VS Code, Postman, Eclipse

Core Concepts: Data Structures, Algorithms, OOPS, DBMS

PROJECTS

E-Commerce Web Application | React.js, Node.js, MongoDB Jan 2024

- Built full-stack e-commerce platform with 50+ products catalog
- Implemented user authentication and authorization using JWT
- Integrated payment gateway and shopping cart functionality
- Deployed on Heroku with 99% uptime | github.com/user/ecommerce

Library Management System | Java, MySQL, JDBC Sep 2023

- Designed database schema managing 1000+ books and 500+ members
- Automated fine calculation reducing manual errors by 90%
- Implemented search algorithms improving query speed by 40%
- GitHub: github.com/user/library-system

Weather Forecast Dashboard | Python, Flask, API Jun 2023

- Integrated OpenWeatherMap API for real-time weather data
- Created interactive dashboard with 5-day forecast visualization
- Implemented caching mechanism reducing API calls by 60%

ACHIEVEMENTS

-
- Solved 250+ problems on LeetCode (Rating: 1500+)
 - Completed "Python for Everybody" Specialization - Coursera
 - Finalist in College Coding Competition 2024
 - Active contributor to open-source projects on GitHub

LEADERSHIP & ACTIVITIES

Technical Coordinator, College Coding Club 2023 - 2024

- Organized 5+ workshops on DSA and Web Development for 200+ students
- Mentored 30+ juniors in competitive programming

CERTIFICATIONS

- Java Programming Masterclass - Udemy
- Complete Web Development Bootcamp - Coursera
- SQL for Data Science - Coursera

Template 2: Modern Minimal

PRIYA SHARMA

✉ priya.sharma@email.com | ☎ +91-9876543210
🔗 linkedin.com/in/priyasharma | 💻 github.com/priyasharma
📍 Pune, Maharashtra

🎓 EDUCATION

B.Tech in Computer Science & Engineering 2021 - 2025
ABC College of Engineering, Mumbai University
CGPA: 8.5/10 | Relevant: DSA, DBMS, OS, CN, Software Engineering

💻 TECHNICAL SKILLS

Languages: Python | Java | C++ | JavaScript | SQL
Frontend: HTML5 | CSS3 | React.js | Bootstrap
Backend: Node.js | Express.js | Flask | REST APIs
Database: MySQL | MongoDB | Firebase
Tools: Git | GitHub | VS Code | Postman | Jupyter

PROJECTS

—
Task Management Web App | MERN Stack December 2023
→ Full-stack application with user authentication and CRUD ops
→ Real-time task updates using WebSocket reducing load time by 50%
→ Responsive design supporting 500+ concurrent users
→ Live: taskmanager-app.netlify.app | Code: github.com/priya/tasks

Student Database System | Java, MySQL August 2023
→ Console application managing academic records for 1000+ students
→ Implemented search algorithms cutting query time by 65%
→ Automated grade calculation and report card generation
→ Repository: github.com/priya/student-db

Portfolio Website | HTML, CSS, JavaScript May 2023
→ Responsive personal portfolio with dark/light theme
→ Contact form with email integration using EmailJS
→ Visit: priyasharma.github.io

CODING PROFILES & ACHIEVEMENTS

-
- LeetCode: 300+ problems solved | Rating: 1600+
 - HackerRank: 5-star in Python and Problem Solving
 - GeeksforGeeks: 400+ problems solved
 - Winner - College Level Hackathon 2024
 - Python Programming Certification - Coursera (Grade: 96%)

EXTRACURRICULARS

—
Technical Head, Women in Tech Club 2023 - Present
→ Led team of 15 organizing 8+ technical workshops
→ Increased club membership by 120% in one year

Template 3: Skills-Focused

ARJUN PATEL

arjun.patel@email.com | +91-9876543210
GitHub: github.com/arjunpatel | LinkedIn: linkedin.com/in/arjunpatel
Hyderabad, Telangana

OBJECTIVE

Motivated Computer Science student with strong foundation in data structures, algorithms, and software development seeking entry-level software engineer position to contribute to innovative projects and grow technical expertise.

EDUCATION

Bachelor of Engineering - Computer Science 2021-2025
PQR Engineering College, JNTUH
CGPA: 8.3/10

Higher Secondary (XII) - PCM 2020-2021
XYZ School, CBSE | Percentage: 88%

TECHNICAL EXPERTISE

Programming Languages:

- Java (Advanced) | Python (Intermediate) | C++ (Intermediate)
- JavaScript (Intermediate) | SQL (Intermediate)

Web Development:

- Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap
- Backend: Node.js, Express.js, REST API Development

Database Management:

- MySQL, MongoDB, SQLite | Query Optimization | Schema Design

Development Tools & Platforms:

- Version Control: Git, GitHub
- IDEs: VS Code, IntelliJ IDEA, PyCharm
- Other: Postman, npm, Maven, Heroku

Core Computer Science:

- Data Structures & Algorithms

- Object-Oriented Programming
- Database Management Systems
- Operating Systems Fundamentals

TECHNICAL PROJECTS

Chat Application | Node.js, Socket.io, MongoDB Jan 2024

- Real-time messaging app with 100+ concurrent user support
- Implemented WebSocket for instant message delivery
- Features: group chat, file sharing, user authentication
- Deployed on Heroku | Link: github.com/arjun/chatapp

Online Voting System | Java, MySQL, Servlets Oct 2023

- Web-based secure voting platform with admin panel
- Implemented encryption for vote security and privacy
- Real-time result visualization with charts
- Supported 500+ test votes with zero downtime

Personal Blog Website | React.js, Firebase July 2023

- Dynamic blog with CRUD operations and comment system
- Firebase authentication and Firestore database integration
- Responsive design with dark mode toggle
- Live at: arjunpatel.web.app

Expense Tracker | Python, Tkinter, SQLite Apr 2023

- Desktop application for personal finance management
- Automatic categorization and monthly reports
- Data visualization using matplotlib
- Download: github.com/arjun/expense-tracker

PROBLEM SOLVING & COMPETITIVE CODING

- LeetCode: 220+ problems | Focus: Arrays, Strings, Trees
- HackerRank: 4-star in Problem Solving and Java
- CodeChef: Highest Rating 1450 (3-star)
- GeeksforGeeks: Solved 150+ DSA problems

CERTIFICATIONS & COURSES

- The Complete Web Developer Bootcamp - Udemy (40 hrs)
- Data Structures and Algorithms in Java - Coursera
- Introduction to Cybersecurity - Cisco Networking Academy
- SQL for Data Analysis - Udacity

POSITIONS OF RESPONSIBILITY

Core Team Member, College Tech Fest 2023 - 2024

- Coordinated technical events for 300+ participants
- Managed website development team of 5 members

ADDITIONAL INFORMATION

- Languages: English (Fluent), Hindi (Native), Telugu (Basic)
 - Willing to relocate: Yes
 - Hobbies: Competitive Programming, Reading Tech Blogs
-

Quick Tips for Interview Day

Before the Interview:

- Research the company thoroughly
- Review your resume and projects
- Prepare 2-3 questions to ask interviewer
- Dress formally (shirt, trousers, formal shoes)
- Carry multiple resume copies
- Reach 15 minutes early

During Technical Interview:

- Think out loud when solving problems
- Clarify requirements before coding
- Start with brute force, then optimize
- Test your code with examples
- Mention time and space complexity

During HR Interview:

- Maintain eye contact and smile
- Be honest but positive
- Show enthusiasm for the role
- Use STAR method for behavioral questions:
 - Situation
 - Task
 - Action
 - Result

Important Links

Coding Practice:

- LeetCode: leetcode.com
- HackerRank: hackerrank.com
- GeeksforGeeks: geeksforgeeks.org

Aptitude:

- IndiaBix: indiabix.com
- Freshersworld: freshersworld.com

Mock Tests:

- Prepbytes: prepbytes.com
- Unstop: unstop.com

Resume Tools:

- Overleaf (LaTeX): overleaf.com
- Canva: canva.com
- Resume.io: resume.io

Final Checklist

✓ Resume finalized and reviewed ✓ LinkedIn profile updated ✓ GitHub profile with 2-3 pinned projects ✓ Solved 100+ coding problems ✓ Completed 5+ mock tests ✓ Practiced HR questions ✓ Can explain all resume projects ✓ Reviewed core CS subjects ✓ Formal attire ready ✓ Documents ready (ID proof, marksheets)

Remember: Consistency beats intensity. Practice daily, stay confident, and believe in yourself. Good luck with your placements! 🚀

For updates and more resources, connect with seniors and join placement preparation groups.
