EDUCATION

BGS Institute of Technology, Mandya
Bachelor of Engineering, Computer Science
Aradhana PU College, Mysore
1st PUC – 2nd PUC

2022-2026

2020-2022

INVOLVEMENT

[IEEE – Robotics and Automation](#)

Speaker at 6G Summit, IIIT Bangalore

August 2024

- Delivered a talk on AI's pivotal role in the transformation of 6G networks, focusing on intelligent automation and real time data processing.
- Engaged with experts and academics to discuss the future of AI in telecommunications at a prominent IEEE event.

[Entrepreneurship Cell, BGSIT](#)

PR and Social Media Handler

2023-Present

- Contributed to the growth of the college's entrepreneurship community by managing PR and enhancing visibility through strategic social media engagement.

PROJECTS

- [Traffic Sign Detection](#) - Tensorflow, Keras, Python - This project involved building a machine learning model capable of detecting and classifying various traffic signs from images or video streams. The goal was to create a system that could assist in autonomous driving by recognizing traffic signs in real time.
- [Mental Health AI Chatbot](#) – Streamlit, NLP - The AI-powered chatbot is designed to provide mental health support by engaging users in conversations, offering helpful responses, and guiding them through various coping strategies. It is capable of understanding user emotions and offering personalized advice based on user input.
- [AlgoArena](#) – Django, ReactJS, PostgreSQL - Developing an educational platform to help users learn algorithms interactively through tutorials, quizzes, and problem-solving.
- [eCommerce App](#) – Django, MySQL, Javascript - Built an e-commerce website with features like product listing, shopping cart, payment gateway integration, and order tracking.

TECHNICAL SKILLS

- Programming Languages:** Python, C, Java, Javascript, HTML.
- Technologies/Frameworks:** ReactJS, Django, PostgreSQL, Machine Learning, Tensorflow, NLP.
- Certifications:** C++ Completion(Microdegree), Software Engineering & Agile Development(Infosys).

ADDITIONAL INFORMATION

- Hackathons/Competitions:**
 - GirlGeekHack 2023, NIT Surathkal
 - HackSprint 2024, PESCE, Mandya
 - Aarambh 2024, Don Bosco College of Engineering, Bangalore
- Workshops:** Snapchat Lens Studio, IEEE 6G Summit, Digital Productivity by NIIT
- Interests:** Teaching, Dance, Volunteering, Building Innovative Projects, Design Thinking.
